Our Three year pledge for

Building A Church Without Walls:

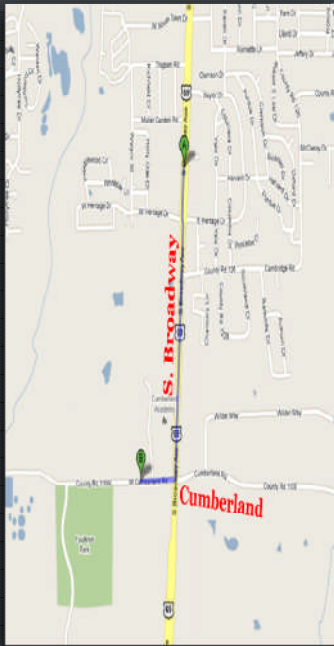

This Sunday we are making our three year pledge toward our first facility. These pledges are over and above our regular giving.

When considering your pledge, remember that giving does not have to be in equal increments over the three year period of the campaign. You might be able to give more in the third year than in the first two. As you think about your financial commitment to the campaign, think not just of your potential to give right now, but also of your potential to give in the future. It might be that you can make a three year commitment in which 20 percent is given in the first year, 30 in the second year and 50 percent in the third year.
